EXPERIENCE

Accenture, Gurugram *June 2026 – July 2026*

Advanced Engineering Analyst Intern

- Gained hands-on experience with modern technologies through enterprise-level training and practical assignments.
- Applied technical skills to real-world business challenges while developing an understanding of technology-led digital transformation.
- Worked with React, Python, FastAPI, SQLite, and Generative AI during the internship.
- Strengthened problem-solving, collaboration, and software development skills in an agile corporate environment.

TECHNICAL SKILLS

Programming Languages:	Java, JavaScript, SQL
Backend Development:	Node.js, Express.js, FastAPI, REST APIs
Databases:	MongoDB, PostgreSQL, MySQL, SQLite
Authentication & Real-Time:	JWT, WebRTC, Socket.IO
Developer Tools:	Generative AI, Deepgram, Git, GitHub, VS Code

EDUCATION

National Institute of Technology, Kurukshetra *2024–2027*

Master of Computer Applications (MCA); CGPA : 8.25

Dr. Virendra Swaroop Institute of Computer Science *2020–2023*

Bachelor of Computer Applications (BCA), CSJMU; CGPA : 8.10

PROJECTS

AI Social Media Scheduler *In Progress*

React.js, Node.js, Express.js, MongoDB, JWT, AI APIs

- Developing an AI-powered social media management platform to simplify content creation, scheduling, and publishing across multiple social media platforms.
- Built an AI Content Composer that generates customized social media captions and post content from user prompts, supporting different writing tones and content requirements.
- Integrated Generative AI APIs for text generation, AI-powered image creation, and YouTube thumbnail generation to support automated multimedia content creation.
- Developing RESTful APIs, JWT-based authentication, MongoDB data persistence, content scheduling, generation history, and dashboard features for managing social media workflows.

AI Interview Platform *Jan 2026*

React.js, Node.js, PostgreSQL, WebRTC, Socket.IO, Deepgram, Groq LLM

- Developed an AI-powered mock interview platform using React.js, Node.js, PostgreSQL, WebRTC, and Socket.IO to support real-time audio-video communication during virtual interviews.
- Integrated Deepgram speech-to-text for interview transcription and Groq Llama-3.1-8B to analyze resumes, job descriptions, and interview transcripts for candidate assessment.
- Implemented automated interview evaluation and feedback generation to help candidates identify strengths, skill gaps, and areas for improvement based on their interview performance.
- Generated downloadable PDF assessment reports containing interview results and evaluation details to support structured performance review and interview preparation.

KEY COURSES TAKEN

Core Subjects: Data Structures and Algorithms, Computer Networks, DBMS

Other: Artificial Intelligence, IWT

CERTIFICATIONS

- Accenture - Agentic AI Fluency

- Accenture - Generative AI Fluency

POSITIONS OF RESPONSIBILITY

Committee Head, Mexperts, NIT Kurukshetra *2025–2026*

Led technical activities and coordinated student events.
